## WOMAN AVOIDS OPERATION

### Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y. — "For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation." — Mrs. JOHN A. KOENIG, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

### Middle Age.

There comes a clear day when one realizes that clothes are to keep the weather off you, that food is to give you health, that home is shelter and inspiration; that, aside from being clean and inoffensive, one's personal appearance does not signify very much; that the main thing in life is to be going along toward the goal of your ideals. That isn't getting old, it's getting sense. From then on Time is not master, but friend.—Collier's.

### Her Castle.

Elsie was naughty, and her mother was driven to box her ears soundly in the very presence of a couple of visiting aunts. Through her tears she sobbed, "And this is the sort of a thing one must endure in one's own house."
